
BeST Awards 2008

Degree Design have recently picked up a Bronze award for Identity Development at the BeST Design Awards 2008 for their work on the RoadCraft brand. The BeST Design Awards are a national award programme of the Designers Institute of New Zealand, recognising New Zealand's best graphic, product and spatial design.

The award is well deserved recognition for Ryan and Alicia at Degree Design. Their work across the business has been instrumental in bringing the RoadCraft brand values to life. As the partnership goes from strength to strength we look forward to continuing to break new ground and produce inspirational design ideas and execution. Thanks to the team at Degree Design.
